

# Naturality

Preserving the elegance  
and quaintness of  
south western Ontario.

As we develop properties throughout South Western Ontario, we pay close attention to respecting everything that needs to be cherished.

# WE ARE INVESTING INTO AGRICULTURE AND RURAL COMMUNITIES THROUGHOUT SOUTH WESTERN ONTARIO.

South western Ontario is an excellent region of the province for us to invest in almost every property sector. We make sure that the type of investments that we initiate and apply, achieve an end result that has a positive impact on both the local economy and the overall society.

At Mariposa, we are currently planning to invest approximately CDN \$60 billion into the development and enhancement of south western Ontario. We believe that the economic output per area has tremendous potential, and can place the future of the Ontario economy and industrial growth most particularly far ahead of all other Canadian provinces and U.S. states by 2040.

CDN \$810 billion is the future GDP in south western Ontario.

This is what we believe at Mariposa, can be achieved by 2050.

Mariposa Naturality is currently developing the following smart farm properties in rural communities throughout south western Ontario.

 **mariposa™**  
**smart farms**

233 organic vegetable farms.

61 organic fruit farms.

56 naturopathic dairy farms.

22 naturopathic pig farms.

33 naturopathic chicken farms.

TELL ME  
WHAT YOU  
EAT, AND I  
WILL TELL  
YOU WHAT  
YOU ARE.

Mariposa Farming Philosophy

# HELPING BUILD VIBRANT ECONOMIES, WHILE PRESERVING CULTURE AND SOCIAL QUAINTESS.

Mariposa is pursuing commercial property development projects for it's parent company Conti Group, with an objective to create tranquil environments that improve the local economy while also preserving culture and social elements that need to be cherished and valued.

Eden Mills

## FARMERS' MARKET

Eden Mills Farmers' Market is a farmers' market that will offer a variety of food products and many more products for the home and personal lifestyle. The Market was designed by architects from Mariposa Vision, and is currently being built by master tradespeople from Mariposa Construction Services; and will be located in the rural community of Eden Mills, Halton Region, Ontario, Canada. Once operational, Eden Mills Farmers' Market will become the largest year-round farmer's market in the Province of Ontario, and will also become a popular destination for residents of the Town of Eden Mills and nearby communities throughout Halton Hills, as well as becoming a tourist attraction for visitors from across Canada, and the United States, and Europe. The Eden Mills Farmers' Market is anticipated to attract and accommodate over 1 million visitors annually.
