WELCOME TO ALL THINGS:

mariposa
exhibition

CANADA

The Mariposa Exhibition houses everything the company designs and manufactures under one roof.

WE ARE FULL SPECTRUM OF PROPERTY DESIGN, DEVELOPMENT, AND IMPROVEMENT.

ABOUT US

There is not a single industry sector nor product element of property design, development, and improvement that Mariposa does not innovate and accommodate.

INSIGHT

We are among the most diverse service providers anywhere in Canada. Our service capabilities are vast and expand across a wide range of areas that accommodate residential, commercial, and industry properties.

OUR PROCESS

Mariposa is defining the future of properties, the way they are designed and function. We are design trend setters and innovative engineers who aspire to always provide a product or an end result that stimulates the senses and represents ingenuity.

TIMELINE

We have been around for over 60 years. We are not a perfect company, we've endured through our fair share of struggles. However, we are still existing and thriving. We are rapidly expanding and competing in a most compelling way.

OUR NATURE

A person who's been around and experienced much in life could easily describe us and express that it's in our DNA to survive and excel. We are a company that was born out of the industrial evolution of WW2, and with vigor and tenacity, we are exceptionally talented at defying the odds.

OUR ROOTS IN ITALY

Despite Mariposa was founded in western Toronto Canada by Giovanni Conti, the company's story began in Italy.

NATALIA CONTI

THE CONTI FAMILY

During the 1950s, the Conti Family became fortunate through marriage to be elevated to a status of Italian Nobility, and as such became members of the elite fashionable society of Milan. Soon after the Conti Family became connected and intertwined with Italian Royalty, since the Italian Royals and the Conti Household were directly related and amalgamated in business ventures and investment fortunes, the Conti's were able to elevate themselves to a pristine and distinguished status.

Due to obtaining such connections, and born out of such ventures, the Conti Family became quite elevated and were able to establish themselves in designing a wide range of consumer goods that included fashion apparel, decorum, and architectural building materials. Today stands a Conti family legacy of inspiring design, which are all displayed through Iconic Brands.

THE CONTI FAMILY

Katalina Conti who was adopted into the family, respects and considers Giovanni and Angela Conti to be her adopted parents, even proudly taking the Conti surname.

KATALINA CONTI IS AMONG THE MOST SUCCESSFUL MEMBERS OF THE CONTI FAMILY, SIGNIFICANTLY CONTRIBUTING TO ALL ASPECTS OF DESIGN AND HAVING FOUNDED OVER 90 COMPANIES TO BE ADDED TO THE FAMILY'S MASSIVE BUSINESS EMPIRE.

THE CONTI FAMILY DYNASTY NESTLED IN HALTON HILLS ONTARIO.

THE CONTI'S IN CANADA

Many Canadians would be shocked to learn that The Conti's consider Canada to be their second home. They've been living out their lives essentially under everyone's noses since the early 1920s. It's simply historical ignorance or social unawareness for those who find it surprising to learn that a great family is involved in a great company such as Mariposa.

OUR PASSION FOR DESIGN

"In the name of the father and the son and all aspects of design, let me lord be fortunate to innovate and inspire."

Within the Conti family, design is considered as important as one's spiritual faith. The parallels between design and religion is merely a fine thread. There is no doubt that Mariposa has benefited from such passion for design. The Conti family design capabilities has laid the foundation for why and how Mariposa is involved in all aspects of property design, development, and improvement.

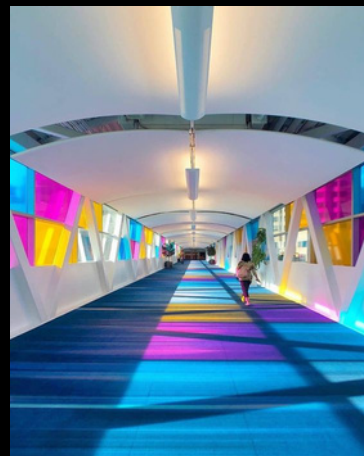

"All great fortunes are born out of a necessity to invent great design."

– THE CONTI'S

OUR WORK

If you live in Toronto or nearby, then you've definitely seen our work and most probably have walked by several times.

When you are among the oldest contractors in the nation, your work, well to describe the obvious, tends to be almost everywhere...

"Take a deep breath and try all over again." Wow, we've definitely said and heard this many times over the years.

– Anyone who has been a member of Team Mariposa for over a year.

"WE ARE DEFINING THE FUTURE OF DESIGN"...

Wow again, can relate, we sound important! Perhaps we are, however someone in the marketing department just slapped that corporate description up there because they want to bedazzle the readers with all of the mental stimulation of the OOOOHs and the AAAAHs. Quite frankly the truth to be told, does anyone really care? ANYONE? NAH, probably not...

Although what they do care about, and are probably wondering about? Is the simple fact, can we deliver? Can we actually do everything that we say that we can, and are willing to do based on our promises?

WELL, the answer is simple, in fact the answer is in the fact that we are a company that has endured through countless challenges and has survived to become even stronger. Does it really matter that we have been around so long? The answer is absolutely. We are a rapidly expanding company and is thriving.

I mean it's a fact...

Just look over there

We must be doing something right!

THE MASTERMINDS

Mariposa is not led by Captains of Industry, neither Business Tycoons nor an Iconic Mogul; the company is led by design trend setters, engineers, and business innovators.

Who is leading a company is enormously important for an abundance of reasons. If you do not have the right people at the foundation of the company, you will not really be on the right path to success. A company cannot succeed if such company is not guided by pragmatic strategies and is adaptable to rapid change.

Mariposa in Canada is led by people with the following life experiences and career backgrounds.

- An automotive designer and engineer.
- A master home builder.
- A Naval Aviator, Fighter Pilot.
- A rocket scientist.
- A central banker.
- A realtor and property investor and developer.
- A mortgage broker.
- A mortgage firm administrator.
- A former LCBO senior executive.
- A former LCBO executive administrator.
- A long-lived and successful mother and housewife.
- A podcaster.
- Another Master Home Builder.
- A film director and producer.
- A television media broadcaster.
- A master architect.
- A dentist.
- A construction engineer.
- A truck driver.
- A fashion designer.
- A hair stylist.
- A baker and chef.

BUILDING A SMART SOCIETY

At Mariposa, we are AI nut bars. Which essentially means that we are obsessed with advanced technology integration.

LUXURY HOMES

THERE ARE SIX LUXURY HOME BUILDING BRANDS WITHIN MARIPOSA HOMES CANADA.

From restoring homes in downtown Toronto, Montreal, and Vancouver, to building among Canada's finest addresses in the suburbs. There is not a segment of luxurious home building that Mariposa is not involved in with its various reputable brands and tailored services.

COMMON HOMES

WE BUILD A CONSIDERABLE AMOUNT OF COMMON HOMES THAT ARE PRACTICALLY PRICED, AND YET ARE ELEGANTLY DESIGNED AND MAINTAIN GREAT VALUE.

At Mariposa, we insist on offering quality for value. We care about home consumer concerns and protection. Being a great home builder is all about attitude and perception. This means that we build homes that we would want to buy and live in ourselves. Maintaining our reputation as a great home builder is about not cutting corners for profit; is about using the best construction materials; is about having the most talented trades people who properly know how and will do the building task right!
